

ISF Internationale Schule Frankfurt - Rhein - Main

Education For A Changing World

The **LEARNING P.E.A.C.E** Program for parents was offered at our school. This is one of the best programs that I have run across in a while. I felt this program was beneficial because it was positive and motivating for parents. Parents received concrete tips on how to deal with specific day to day situations. Often workshops are filled with theory and very little practical exercises but this is not the case with the P.E.A.C.E Program. Parents are provided with tools to deal with day to day problems that appear.

years

Another important aspect of this program is that it forces participants to face their own morals, values, ideas, and fears. As the participants examine their own personal feelings, they are then in a better position to change things about themselves.

I highly recommend this program to all parents and schools. The program offers a solid foundation for parents and schools to operate together for the betterment of children.
